

PS Kenya's COVID-19 Health Support and Response

Since the first case of COVID-19 was confirmed in Kenya, PS Kenya has put in place a number of initiatives that could be leveraged on to support the fight against the Covid-19 disease. The Tunza social franchise network, is one great resource, working with over 400 franchised private facilities, where it focuses on building the capacity of providers to offer quality health services. Additionally, under the UKAID funded project – DESIP, PS Kenya supports both private and public facilities in 19 counties to increase access to quality family planning services. In the wake of COVID-19, PS Kenya has expanded its support to respond to this urgent need through a blended approach targeting both health providers and the consumers.

Media Dissemination of COVID-19 Information.

PS Kenya is supporting to push out COVID 19 messages on 9 RADIO Stations that PS Kenya is working with for our health campaigns, they include:

- Saalam FM
- Tana FM
- Sifa Marsabit FM
- Radio Kaya
- Radio Namlolwe
- Radio Angaaf
- Echami FM
- Emoo FM
- North Rift Radio

Support to County Governments.

- DESIP project has been working closely with the 19 Counties on different capacities since this pandemic was announced.
- Partners weekly meeting where we get updates on what is happening on the ground.
- The project teams on the ground have been part of the task force committees in the counties and have been updating the HQ team on all the plans in the Counties.
- The project has been closely monitoring access of FP commodities through commodities re distributions and facilities stock taking where need arise.
- Community approach has been strengthened by mapping out all functional, CU, CBO and CHVs who can be used as community agents either to pass messages on FP and refill clients with methods.
- Distributed 600 sanitizers to all the 19 counties and 50 to the National government (DRMH).

Posters distributed per County.
